DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by European Patent Application 0 089 680 to Scheibner.

Scheibner discloses a container comprising a pair of sidewalls defining the container interior and an open end. To close the open end, Scheibner discloses a web arrangement having a pair of webs with respective first and second locking members that are repeatedly capable of mating engagement along substantially their entire lengths. Along substantially the entire lengths of the first and second locking members Scheibner discloses an embossed or engraved pattern to form gripping surfaces for assisting a user during the opening, loading and unloading of the container. The gripping surfaces of Scheibner meet applicant's "visual indicia means" to the same degree as claimed.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
